

2027 (131st) Boston Marathon Tour

INTERNATIONAL
TOUR PROGRAM

Features of Our Marathon Tours

- Our company is an officially authorized sports agent for the ITP (International Tour Program) Japan region, approved by B.A.A. (Boston Athletic Association), the organizer of the Boston Marathon.
- Even runners who cannot clear the Qualify time have valuable tour entry rights for those who can finish within 6 hours, so they can officially register for the event and participate. Since 2024, runners finishing 6 hours or more have no finishing time recorded and the Unicorn finisher medals will not be awarded.
- For marathon registration, you now need to create your personal account [Athlete Village Login], enter the Entry Code No, and Passcode, and register yourself.
- At the Marathon EXPO venue, you will receive your bib and purchase merchandise, then after lunch, you will inspect the marathon course in our own coach. From the starting point, you will inspect key points such as Heartbreak Hill on the course. Please note that entry to the finish area is restricted due to traffic restrictions.
- Also, since we plan to pick up the Bib at the Marathon EXPO from the morning on Saturday, April 17, the timing will overlap with the 5km race starting at 8 a.m. Therefore, participants in

the 5km race are requested to act independently and only participate in the marathon course preview from the afternoon. According to the event organizer's regulations, those using ITP entry rights must comply with the tour's collective behavior. If you wish to enter the 5km race, please notify us promptly. Registration for the 5km race is scheduled to be selected by lottery between late January to early February.

- In traditional full marathon and one-way events, over 30,000 runners will start in Waves 1 to 6 according to their time limits. The time limit is 6 hours. Measurements will be done in net time. In 2026 (the 130th event), wheelchair users, professional athletes, and para athletes started first followed by Waves 1 through 6. For ITP Tour entries without a Qualify time, the start will be the rear end of Wave 6 (Corral 8, scheduled for 11:21).
- Japan Airlines' shortest and most convenient direct flight between Narita and Boston, this time you can reserve seats in advance such as aisle or window seats. (Seat selection is on a first-come, first-served basis.)
- The tour course plan is a 4-night, 6-day plan departing from Tokyo (Narita). (Please contact us for extended stays.)
- On the day of the event, we will provide transportation and guidance to the shuttle bus from the hotel to the starting point.
- The hotel is a comfortable, 3-star functional hotel located about 1 mile from the exit of the goal area and about a 20-minute walk. (Please note that the hotel bathroom may be shower-only without a bathtub.)
- From 1998, except for the two years of the COVID-19 pandemic, we have planned and traveled the Boston Marathon every year. Our staff, who are well-versed in the Boston Marathon, will accompany you from Narita to Boston and support you during your stay together with local Japanese staff.
